***Ribbed Spirit Level**

Basic Information:

Aluminum extrusion profile for none warp or twist.

Three fixed vials with two grade accuracy 0.5mm/m or 1.0mm/m.

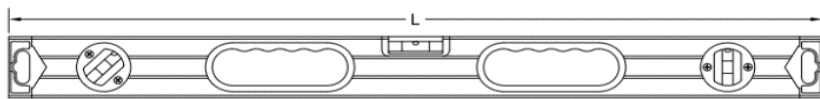

Double milled surfaces for high flatness(optional).

Two straight shape handles.

Without magnets

Two big hanging holes on the end caps for convenient storage

***HD Aluminum Mini Level**

Basic Information:

Heavy duty aluminum frame with none twist warp.

Powder coating finish.

2 fixed block vials(180°,90°) with 0.5mm/m accuracy.

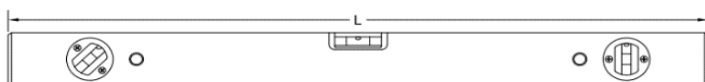

Stainless steel hooks at the end.

D shaped horizontal vial for bending watching.

Milled bottom for high flatness.

Magnetic bottom.

*Box Level

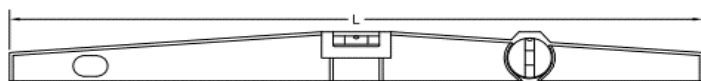

Basic Information:

Aluminum frame, powder coating finish or silver anodized finish.

Three fixed vials with two grade accuracy 0.5mm/m or 1.0mm/m.

With two hanging holes.

Item No.	L (mm)
AS4B2F0300NT	300
AS4B2F0400NT	400
AS4B2F0500NT	500
AS4B2F0600NT	600

*Die-casting Level

Basic Information:

Light duty die-casting aluminum frame

Two vial, horizontal and plumb.

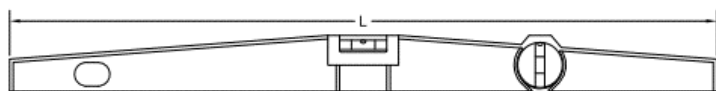

Milled bottom working surface.

Powder coating finish.

Without magnets

With one hanging hole.

Item No.	L (mm)
AS4B2F0300YT	300
AS4B2F0400YT	400
AS4B2F0500YT	500
AS4B2F0600YT	600

*Die-casting Level

Basic Information:

Light duty die-casting aluminum frame

Two vial, horizontal and plumb.

Milled bottom working surface.

Powder coating finish.

With magnets

With one hanging hole.

Item No.	L (mm)
AS4B2F0600NT	600

*Professional Heavy Duty Casting Level

Basic Information:

Heavy duty casting aluminum frame for none warp or twist.

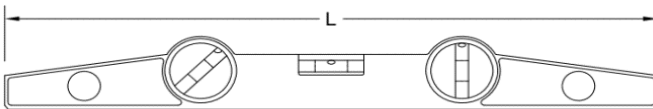

With two professional vials, horizontal and plump, accuracy 0.5mm/m.

Milled bottom for high flatness.

With one human body engineering handle. With hammer resistant mat for easy tiling work.

With two Hanging hole.

Item No.	L (mm)
AS4B3F0250YT	250

*Casting Scaffold Level

Basic Information:

Middle duty aluminum die-casting level in 10 inch(250mm)

Powder casting finish.

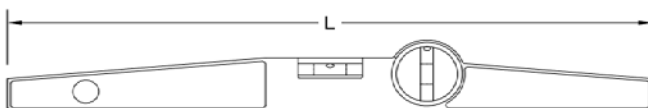

Three vials(45°&180°&90°) with accuracy 0.5mm/m.

Milled bottom for high flatness.

With two hanging holes.

With strong holding rare earth magnets on the milled bottom.

Item No.	L (mm)
AS4B2F0250YT	250

*Casting Scaffold Level

Basic Information:

Middle duty aluminum die-casting level in 10 inch(250mm)

Powder casting finish.

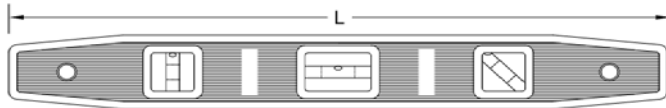

Two vials(180°&90°) with accuracy 0.5mm/m.

Milled bottom for high flatness.

With one hanging hole.

With strong holding rare earth magnets on the milled bottom.

Item No.	L (mm)
AS4C3F0228YT	228

***Torpedo Magnetic Level**

Basic Information:

Size 9 inch.

Light-duty extruded aluminum frame.

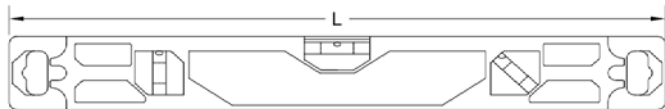

3 Vials read plumb, horizontal and 45°.

Strong-holding magnetic edge.

V-grooved working edge fits on pipe or conduit.

With two hanging holes.

Item No.	L (mm)
AS4C3F0228YS	228

***Torpedo Magnetic Level**

Basic Information:

Size 9 inch.

3 Vials read plumb, horizontal and 45°.

Top-read center vial for improved readability.

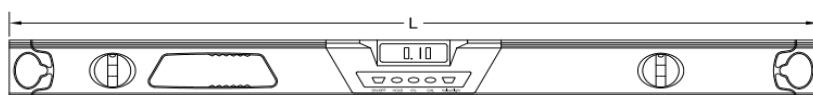

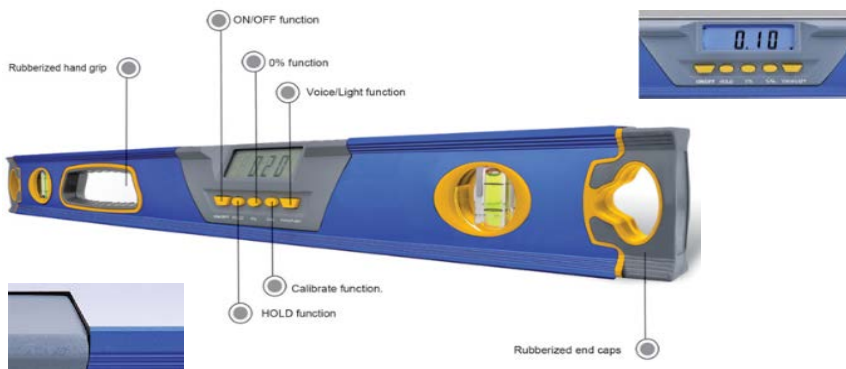

Endurable ABS plastic body.

Strong-holding magnetic edge.

With two hanging holes.

Soft TPR end caps for shocking resistant.

Item No.	L (mm)
AS4D2E0450NS	450
AS4D2E0600NS	600
AS4D2E0900NS	900
AS4D2E1000NS	1000
AS4D2E1200NS	1200

***Professional Digital Level**

Basic Information:

Heavy duty aluminum frame for none warp or twist.

2 fixed vials with professional accuracy

0.5mm/m (0.0005in/in).

Digital accuracy 0.1° at level and plumb, 0.2° other angles.

Double milled surfaces for high flatness.

Large double color rubberized end caps for strong shock resistance.

Big rubberized handles for comfortable work.

Two big hanging holes on end caps for convenient storage.
